

Outlook Express SMTP Auth

- Open Microsoft Outlook Express
- From the main Screen open the “Tools” menu and then select “Accounts...”
- Select the “mail” tab
- Click on the mail account to modify – this will cause it to become highlighted
- Click on the “Properties” button
- Click on the “Server” tab
- Tick the box next to “My server requires authentication”
- Click the “Settings...” button

- Make sure that “Use same settings as my incoming mail server” is selected
- Click “Ok” twice
- Click the “Close” button
- You should now be back to the main Outlook Express screen
- Check you are online then test to ensure you can send mail
